JCB 30PLUS | MINI EXCAVATOR

**Compact in size. High on performance**

Operating Weight: 2870kg, Net Engine Power: 18.4kW (24.7 hp)

## MINI BUT MIGHTY

NO ONE KNOWS BETTER THAN JCB HOW TO BUILD A ROBUST EXCAVATOR. THE JCB 30PLUS IS THE PRODUCT OF OUR VAST EXPERIENCE AND KNOW HOW IN THIS SECTOR. TROUBLE-FREE, SOLID AS A ROCK AND BUILT TO LAST. IT MAY BE MINI, BUT IT'S MIGHTY.

The heavy-duty track idler guides and grease tensioners give greater strength and durability.

### High strength undercarriage

**1** The JCB 30PLUS's high-quality 250mm wide steel tracks with interlocking links perform in the most arduous applications.

**2** High-strength track legs boast three-piece fabrication to maximise rigidity and improve track retention. Chamfered edges reduce spoil retention and makes the undercarriage easier to clean. The JCB 30PLUS open-centre track frame design also prevents the build up of spoil.

**3** Our new undercarriage features a top mounted roller enhancing track durability.

**4** Box section dozer arms provide ultimate strength and robustness for all dozer duties.

## Reliable and robust

5 The JCB 30PLUS features colour coded hydraulic hoses for quick hose identification and boasts the latest industry technology "O-Ring Face Seal" (ORFS) hydraulic fittings providing excellent sealing capabilities.

6 Fast cycle times give excellent productivity.

7 The JCB 30PLUS's new cast tread plate helps to prevent paint damage when accessing the cab.

8 Recessed bonnets and a robust rear cast counterweight provides extra damage protection.

## Built to last

9 JCB state-of-the-art manufacturing is 100% focused on build quality, reliability and durability to maximise service life and machine uptime.

Our in-house paint process guarantees quality and lasting protection.

## PRODUCTIVITY REACHES NEW HEIGHTS

AN OUT-AND-OUT CLASS LEADER WHEN IT COMES TO LIFTING AND STABILITY, COMBINED WITH HIGH TRACTIVE EFFORT, TRACKING SPEED AND PUSHING POWER. THE JCB 30PLUS TAKES PRODUCTIVITY TO NEW HEIGHTS.

### Deeper

1 New dig-end geometry for superior excavator performance: 2.74 m depth, 4.77 m reach, 3.22 m dump height.

### Higher, further

2 Maxi-lift dozer ram allows extra lift height even when the dipper is at maximum reach. In addition the super powerful hydraulics gives excellent load hold performance.

### Tractive effort and manoeuvrability

3 The JCB 30PLUS boasts 12% greater tractive effort than its closest rival with the added benefit of improved spin turn.

### Power, performance and stability

At the heart of the JCB 30PLUS is a 18.4kW (gross) BS III engine developing high torque of 96kN at 1800rpm for ultimate performance and efficiency. The engine is cooled by a large heavy duty cooling pack.

A solid, stable work platform improves productivity, lift capacity and operator confidence.

Impressive bucket and dipper tearout performance (23kN and 17kN respectively) coupled with fast cycle times result in high productivity and better efficiency

Superior boom geometry and bucket rotation gives improved soil retention and the ability to dig right up to the dozer.

### Versatility

26% more auxiliary flow than the competition provides ultimate in attachment power.

The bucket-to-grab auxiliary changeover switches oil flow from the bucket cylinder to an additional set of quick-release auxiliary connectors, extending versatility to specialised attachments, such as an auger.

The machine is available with a variety of attachments including quickhitch, soil drill and JCB Hammermaster HM 140.

## DESIGNED TO MAKE LIFE EASIER

**MAKING LIFE EASIER MEANS PUTTING THE OPERATOR FIRST. THE JCB 30PLUS GIVES PRECISION CONTROL IN A SAFE AND COMFORTABLE ENVIRONMENT. SERVICING IS QUICK AND SIMPLE.**

### Precision control

**1** The new hydraulic system results in smooth, controlled, precise and balanced operation of the excavator it also has low effort oil pilot operated servo joysticks.

### Comfort and visibility

**2** The new JCB 30PLUS features a number of enhancement that improve the operator comfort.

- Bottle holder
- Face fan
- Rubber foot track pedals
- Rear view mirror
- 12V charging point
- Under seat tool box
- Improved seating
- Wipe clean roof lining

7

### Maintenance made easy

**7** The new hydraulic valve block is easily accessed beneath the side-opening bonnet. All hoses are colour coded for quick and easy identification in the event of accidental damage.

**8** Hinged cast tread plate gives simple battery access – just use a coin or screwdriver to unlock.

**9** Pin end greasing makes lubricating the dig end quick and easy.

**10** A large 56-litre fuel tank enables continual operation for long hours.

**11** New cabin mounted work lights give effective illumination of the work area.

8

9

10

Wide-opening service access panels are supported by gas struts for excellent access to routine checks.

### Safe and sound

All JCB 30PLUS services, including tracking and dozer, are isolated when the control pod is raised.

# JCB 30PLUS MINI TRACKED EXCAVATOR | SPECIFICATION

The NEW JCB 30PLUS Mini Tracked Excavator is made in India with following best-in-class features

- High reliability with best-in-class service access
- Comfortable operator environment with insulated track pedals
- High manoeuvrability for working in restricted areas
- Fuel efficient to reduce operating cost
- Best backup and parts availability in the industry from JCB dealer network

## OPERATOR ENVIRONMENT
